

M9100RM

M9100FM, p/n 44004G-01: Rack-Mount Kit, for U9100 Master Station.

Consists of 2 each 6061 aluminum mounting brackets, black anodize finish. Interior faced holes spaced to attach to corners on opposing sides of U9100 enclosure lid.

As installed on the U9100, the M9100RM is a 4U mounting kit (4 rack units), to occupy a 7 inch (177.8mm) high rail space on EIA-310 standard 19-inch rack frames and cabinets.

Individual plate dimensions (overall): 7"H x 6"W (aluminum is 0.125" thick)

Machine screws included

NOTE: Surface-Mount Brackets (4 each, stainless steel with urethane foam gasket and fasteners) included with U9100 Master Station

M9110FM

M9110FM, p/n 44004G-02: Flush-Mount Kit, for U9110 Headset Station as well as U9120-W4 & U9120-W4(EU) Wireless Gateways.

Consists of single aluminum bracket (stainless steel, black powder-coat finish), with microcellular urethane foam gasket (1/16" thick) permanently affixed to rear of bracket. Interior faced holes spaced to attach to corners of Headset Station or Wireless Gateway. Exterior holes (6) for mounting to panel/bulkhead.

Stainless steel sealing screws for exterior holes included.

44004G-03: Mounting Gasket Kit, for Headset Stations and Wireless Gateways. Consists of foam gasket only from 44004G-02 above (omits bracket), with self-adhesive backing and sealing-type mounting screws for module.

NOTE: Surface-Mount Bracket (stainless steel with urethane foam gasket and fasteners) included with Headset Station and Wireless Gateways
